**Modulation of lipoxygenase activity and  
chemistry-based detection of protein  
nitration in inflammation**

Paranymphs : Jenny Novianty Soetedjo  
Thea van den Bosch

The research project described in this thesis was carried out in the division of Pharmaceutical Gene Modulation, Groningen Research Institute of Pharmacy, according to the requirements of the Graduate School of Science (Faculty of Mathematics and Natural Sciences, University of Groningen).

This work was financially supported by the University of Groningen

Cover design : Andreas Hidayat Gunawan  
Layout : Rosalina Wisastra
